Kindle Living has revolutionized what people have come to expect from the products it designs and manufactures. In so doing it has invested and continues to invest heavily, both in terms of dollars and man-hours, in developing new products, materials, and methods of manufacturing. Our livelihood depends on our innovation, and we are deeply committed to staying at the forefront, generously spending in creating, expanding, and defending our intellectual property in the US and elsewhere throughout the world.

In accordance with section 287 of Title 35 of the United States Code, this listing is provided to satisfy the virtual patent marking provisions of various jurisdictions, and hereby places the reader on notice of our collective rights associated with our products. The following list of Kindle Living products may not be all inclusive, with other products not listed here still protected by one or more patents.
